Trimingham Smart Water Management	£92,786.09	£74,228.87	20/10/2026	31/03/2027	This project will modernise abstraction management in the Mun catchment, with benefits for farmers, the environment and local communities. Data generated from a network of new instrumentation and monitoring equipment will be combined in a web-based management system and used to coordinate the activities of multiple abstractors in near real-time. This new catchment-scale, dynamic approach to water management will help secure the future of farm businesses that rely on spray irrigation to grow high value crops. It will also help deliver climate, environmental and community benefits prioritised in the Norfolk Coast National Landscape (NCNL) Management Plan (2025-30).
4.	Cley Harbour, Norfolk	Cley Harbour.	£37,252.00	£29,801.60	01/11/2026	28/02/2027	The removal of circa 450m3 of material from the banks of the Glaven adjacent to Cley Windmill to aid navigation of the channel, improve access to nature and facilitate the re-installation of a quay heading.
